Racing Ecosystem: The Client Experience

Understanding Target Demographic Relative to Racing

The sports racing and privateer community is incredibly niche.

Racing should be treated as a **“racing ecosystem”** not just a one-time brand campaign

Understanding Target Demographic Relative to Racing

Many car brands have extremely high-performing vehicles...

So how does the brand stand out?

*Cultivating a racing
ecosystem*

*Attracts sponsors
& racing enthusiasts*

*Emphasizing how ACME
= catalyst of the racing
"story"*

*Racing isn't just about speed, it's
about connection*

*Exclusive sponsor /
donor / racing
experiences*

*Build up anticipation, brand
connectivity*

Steps to Build a Racing Community / Ecosystem

1. Exclusive Race-related Experiences

Cultivate and strengthen niche community

Attract existing racing enthusiast peers

2. Recurring yet immersive programming

Initial events = foundation of key sponsor contacts / peer groups

Leverage racing sponsor data for strategy, future programming, retention

(sponsors can associate ACME motors with facilitation of not just racing but connectivity)

3. Focus on storytelling

Strong narratives
Catalyst of innovation + support

Inspire a “story” associated with the brand

Indiv racer, race weekend, sponsor relationship, community

Financial Forecast from Ecosystem Investment

\$150k avg salary x 10 = 1.5M annual spend

Client Engagement Team Salaries

6-10 initial team members

strategy, analytics, event operations experience

***5 high scale events to start (400k) each
2M = cost approx.***

Upfront Programming & Partnerships Cost

Premium programming

Projected ROI

Potential sale of 5+ prior prototypes //
exclusive retired race cars

Likelihood of high quality sponsors

Increased WOM, branding, & racing
enthusiast to participate in racing

Financial Forecast from Ecosystem Investment

Projected ROI

Potential sale of 5+ prior prototypes // exclusive retired race cars

700k conserv x **5 cars**

\$3.5M

Likelihood of high quality sponsors

500k conserv x **3 sponsorships**

\$1.5M

Increased WOM, branding, & racing enthusiast to participate in racing

Event experience
seats, licensing,
merch

\$1M

Total Projected Revenue (6M) - Cost (3.5M) = 2.5M Net Revenue

Case Study Context:

FERRARI CLUB OF AMERICA (INC.)

Founded in 1962, the Ferrari Club of America is the oldest and only factory authorized club in North America. Members can participate in any of the other 16 Regions and 60 Chapters across the United States and Canada.

Members enjoy exciting track events, an internationally recognized Concours d'Elegance and they can attend any of the approximately 900 year-round events hosted around North America. We have Regions and Chapters throughout the U.S. and Canada that maintain a full calendar of events including social gatherings, parties, track events, rallies, drives and charitable events. Our Annual Experience with hundreds of Ferraris, parties, receptions, day drives, a Mercato, Concours, track event and banquets draws participants and cars from around the world.

*Continuously activate community: constant **exposure** and **brand excitement***

Case Study Context: FERRARI CLUB OF AMERICA (INC.)

Dedicated Racing Ecosystem Pillar

2023: **50k+ spectators**
at non-racing event

Showcase of 250 cars

Surge in **sponsorship
revenue**

Parallel Content
streams

ability to attract high quality sponsors

Preview Day

Understanding the Importance of Community

Racing fans and privateer communities are niche, loyal, and story-driven.

Preview Day is not a car reveal...it's a **community ignition point.**

Understanding the Importance of Community

Treat **Preview Day** as the start of the racing ecosystem, not a one-off event

Pre-Season Priming

Build the hype and ritual

***Competing on
Performance and
Connection***

*Moving beyond the car for
sponsors, donors, and partners*

***Increased Touchpoints
Shape the Season's
Narrative***

*Early-season momentum as a
hands-on host*

Benefits of a Preview Day

Building anticipation and ritual through cyclic events.

Steps to Build a Preview Day

1. Preview Day experiences

First look at the season
or circuit's car

Meet-the-team
moments

Behind-the-scenes
access

2. Instilling routine and ritual

Annualized Preview
Day tradition

Sponsor-integrated
activations

Data capture for
season engagement

2. Building the narrative

Revealing the “why”
behind the car

Highlight engineering
innovations

Season-long narratives
(rivalries,
breakthroughs, etc.)

Case Study Context:

Case Study: McLaren Already Proved This Works

- Revenue grows independently of race results
- Proves racing data has commercial value beyond the paddock

The Strategic Fit

- Builds on existing framework
- Recurring revenue, not one-time fees
- Deepens customer team relationships

Positions ACME as a technology company, giving leadership the internal business case racing needs.

Takeaway

Core Revenue Streams

The racing ecosystem already contains monetizable revenue streams

- Experience — VIP events, memberships (high-margin, direct pay)
- Sponsorship — brands pay for access to a high-value audience
- Data — analytics sold via subscriptions and enterprise contracts

The opportunity is not creating revenue—but scaling and integrating it

Data-Driven Racing Insurance

If data can generate revenue, the next step is: can it also price risk?

Applications

- Teams — performance & incident risk
- Owners — high-value vehicle protection
- Events — operational risk coverage

Business Model (How We Monetize)

- Partner with insurers (MGA model) — no balance sheet risk
- Embed insurance into track days, memberships, and vehicle programs
- Usage-based premiums → recurring, high-margin revenue

Business Model: Data-Driven Racing Insurance Platform

Securitization: Scaling Revenue into Capital

From Performance Revenue to Investable Assets

1. Asset Base:

- Reacquired performance vehicles (GT fleet)
- Operated for track experiences & data capture

2. Revenue Streams:

- Track access & membership fees
- Embedded insurance premiums
- Data & analytics subscriptions

3. Financial Structure

- Cash flows pooled into SPV
- Structured as asset-backed yield product
- Distributed to external investors

Questions

Appendix

Strengthening the Story Associated with the Brand

'Porsche Heritage Moments' film series looks back on 50 years of turbocharging

12/17/2024 - More than five decades ago, Porsche tested the exhaust turbocharger in motorsport. Shortly afterwards, the turbocharger was introduced into series production. Seventeen of the 19 overall Porsche victories at Le Mans were won with turbocharged engines. In 2024, the company celebrated '50 years of Porsche Turbo' in series production and dedicated four episodes of the 'Porsche Heritage Moments' series to this topic.

Personal, yet
conversational

Associates Porsche with
not just an automotive
manufacturer, but a
catalyst of innovation

Benefits of Cultivating a Racing Ecosystem

The strongest communities are build through connectivity, not just products
